

## NPI File Services

At Médicospr.net, Inc. we can prepare the NPI file for your needs including only the records for your local state as one-time file or as an annual subscription service. We have taken care to provide the best quality data to ensure clean loads every time. The state selection is made based on the Provider Business Practice Location Address State Name field.

The NPI data set is published monthly by CMS in a single, flat CSV file with:

- 314 columns
- Over 2.5 million records
- 2.9GB in size

Loading and integrating the raw NPI data provided by CMS can require:

- 30-50 hours to scrub and load initially,
- 50-100 hours to develop software to manage updates and exception processing,
- 10-30 hours per month in loading updates, patching software and performing exception management.

We convert the NPI data in small CSV Comma Delimited flat files by states. We remove some unnecessary fields and rename the columns name to make the data much easier to work. We provide the file layout for all formats.

Médicospr.net, Inc. is a private company that provides scrubbed and formatted NPI data on a fee and subscription basis. Our company is in no way affiliated with CMS, U.S. Government or any branch thereof.

## Save time, money and hassle

Using our services will save your organization a large amount of time and cost required to implement the NPI data and remove much of the pain associated with keeping it up to date.

## Services

- **Single Downloads** - For those who need a quick load of the NPI data for production system or data analysis.
- **Monthly Downloads** - For those who need monthly updated files of the NPI data for a production system.

## Format

### CSV – Comma Separated Values

This is a simple, standard format that can be read natively by many applications (such as Microsoft Excel). We remove some unnecessary fields so you can open in Excel.

The format itself provides optionally quoted values delimited by commas with each line (row) being delimited by a newline character. We ensure that commas within values are properly quoted and ensure that double-quotes are not included in any data.

Example:

```
id,npi_code,entity_type_code,replacement_npi,ein,legal_name,  
"","123","2","","","","Jane Doe, Inc.",  
"","124","2","","","","John Doe Co.",
```

### Excel Format

This is a simple, standard format that can be read by Microsoft Excel. We remove some unnecessary fields so you can open in Excel.

### MySQL Table

A MySQL Table is probably the fastest and easiest way to “load” data since MySQL is a free, file-based database. All MySQL Table options specify the MyISAM database engine. To load, simply shut down MySQL and copy the appropriate database file into the correct data folders and then re-start MySQL.

You can also use MySQL as a staging database and then transfer the data to an Oracle, Sybase, SQL Server or other database using many commercially available ETL (Extract, Transform and Load) tools.

Example:

Field	Type	Null	Default
id	int(10)	Yes	NULL
npi_code	varchar(10)	Yes	
entity_type_code	varchar(1)	Yes	NULL
replacement_npi	varchar(10)	Yes	NULL
ein	varchar(9)	Yes	NULL
legal_name	varchar(70)	Yes	NULL

### Delivery Option

All of our files are compressed (using .zip extension) and are sent by e-mail through our web site.

## Price

### Single File - Standard License

Purchase a single file if you need NPI data for system prototyping, data analysis, or if you are not sure whether you need a subscription.

Single files are available CSV Comma Delimited, Excel or MySQL.

<a href="#">Single File (CSV Format) - Prepaid</a>	\$125.00	<a href="#">Buy Now</a>
<a href="#">Single File (Excel Format) - Prepaid</a>	\$145.00	<a href="#">Buy Now</a>
<a href="#">Single File (MySQL Format) - Prepaid</a>	\$195.00	<a href="#">Buy Now</a>

### Subscription Services - Standard License

Purchase subscription services to receive the full monthly file for twelve months. Annual subscription files are available CSV Comma Delimited, Excel or MySQL.

<a href="#">1 Year Subscription (CSV Format) - Prepaid</a>	\$1,250.00	<a href="#">Buy Now</a>
<a href="#">1 Year Subscription (Excel Format) - Prepaid</a>	\$1,450.00	<a href="#">Buy Now</a>
<a href="#">1 Year Subscription (MySQL Format) - Prepaid</a>	\$1,950.00	<a href="#">Buy Now</a>

## Payment

All NPI file options are prepaid and the payment should be made using the Paypal™ Buy Now option. **Remember to select the required format and service.**
